Possible Solutions

a) Your mom said she will give you 1 nickel or 1 quarter. Which would you take, and why?

> I would take the quarter, because 1 nickel is 5¢ and 1 quarter is 25¢. A quarter is worth more than a nickel.

b) Beau thinks he has more money than Phillip. Is he correct? Why or why not?

Beau's Money

Phillip's Money

> Beau is not correct. Just because his coin is bigger, doesn't mean he has more money. He only has 5¢ and Phillip has 10¢. So, Phillip has more money than Beau.

c) Emily says she has more money than Kelsey. Is she correct? Why or why not?

Emily's Money

Kelsey's Money

> Emily is not correct. Just because she has more coins doesn't mean she has more money. She only has 3 cents and Kelsey has 5 cents. So, Kelsey has more money than Emily.
