

Possible Solution B

Use a place-value chart with place value disks, base-ten blocks, or bundled sticks to show the number. Then show the number again using an open number line.

b) Draw 114 using only tens, and ones.

$11 \text{ tens} + 4 \text{ ones} = 114$		
Hundreds	Tens	Ones
		
Hundreds	Tens	Ones
		
Hundreds	Tens	Ones
