**Related facts** are facts, either addition and subtraction, or multiplication and division, that are alike in some way. For example, the digits 5, 8, and 13 together complete a number bond or fact family.

8 + 5 = 13        5 + 8 = 13        13 − 8 = 5        13 − 5 = 8
