**Possible Solution**

Keone has 14 baseball cards. His mom gives him 10 more. Each plastic page protector holds four cards.

Draw a model and write a number sentence that can be used to find the number of plastic pages he will need for his cards.

24

He needs 6 page protectors.

Step one: 10 + 14 = 24
Step two: 24 ÷ 4 = 6 or (10 + 14) ÷ 4 = 6

14 cards	10 cards
