Possible Solutions

Perimeter

$$P = l + w + l + w$$

Perimeter of a rectangle is equal to
length plus width plus length plus width,
or the sum of all of the sides.

$$P = 2l + 2w$$

Perimeter of a rectangle is equal to twice the
length plus twice the width.

$$P = 4s$$

Perimeter of a square is equal to four times the
length of the side.

Area

$A = l \times w$

Area of a rectangle is equal to the
length times the width.

w

l

$A = s \times s$

Area of a square is equal to the length of
a side times the length of a side.

s

s
